MESSAGE: Dear Ken:

Janis is working out of the office today, but I sent her your most recent letter. We will be back to you as soon as we can.

For your reference, I attach a form of Performance Bond, which we need to discuss with both you and the Town.

As far as the Conservation Easement is concerned, I should point out that your early discussions were with Peter Dranginis rather than Janis. As far as the substance of the document is concerned, I need to speak further with Janis but at this point we know that we need:

1. A corrected amount of acreage and map reference.
2. Provisions for points of access to the conservation areas. The easements are not worth much if we cannot reach them.
3. A reverter clause providing that if the Town is unable or unwilling to continue that the easement will revert to the grantor. The Town Code requires this.
4. We need some reasonable description of existing conditions so that there can be a baseline.
5. In the reference to the terms and conditions the "from time to time" language needs to be deleted.
6. The grantor will need to take care of recording the document.

7. The Town needs reasonable confirmation that the easement is not subordinate to any mortgage or other encumbrance. Obviously, we can discuss pre-existing utility easements.

Finally, there is an open issue as to whether trees in excess of those which were discussed with the Planning Board were removed, and what type restoration should be effected.

I will call you as soon as I can.

Regards, Jim Nelson
